

Luís Soares

Physics Engineering Student · Software Engineer

luiscsoares.net

luiscsoares1031@gmail.com

Castelo de Paiva, Portugal

S U M M A R Y

Physics Engineering student who is trying to assert myself as a software engineer. Self-taught experience building web apps and desktop tools, including a full-stack AI assistant running on my own server. Comfortable across frontend and backend and always picking up something new

E D U C A T I O N

BSc Physics Engineering (Ongoing)

2024 – Present

Faculdade de Ciências da Universidade do Porto

High School – Sciences & Technology

Completed 2023

P R O J E C T S

Jarvis – Personal AI Desktop Assistant

2026 – Present

Personal Project

- Full-stack desktop app: Electron + React frontend, Python/FastAPI backend on a self-hosted Ubuntu Server VM (Proxmox), accessed remotely via Tailscale.
- LLM-powered intent parsing (Claude Haiku) with local SQLite cache; features include persistent memory, task/reminder management, personalized calendar, real-time weather and football data, and a SymPy computation engine.
- Frameless transparent window with system tray, and a card window for structured data display.

Personal Portfolio Website

2025 – Present

luiscsoares.net

- React with React Router, deployed to GitHub Pages. Includes a vertical timeline experience page and project cards with README popup for each project.
- CSS architecture, badge positioning, card alignment, and Flexbox layout across multiple components.
